Subject: RE: Drinking Water Treatment at [Ex. 6 Personal Privacy (PP)]

Kathy,

I spoke with [Ex. 6 Personal Privacy (PP)] I tried explaining that GAC would remove the PFOA from his water but he wasn't interested. [Ex. 6 Personal Privacy (PP)]
[Ex. 6 Personal Privacy (PP)]
[Ex. 6 Personal Privacy (PP)] [Ex. 6 Personal Privacy (PP)]

Ex. 6 Personal Privacy (PP)

[Ex. 6 Personal Privacy (PP)] I told him that she would be calling him soon.

Ex. 6 Personal Privacy (PP)

Please let me know if I can do anything else,

Thanks,

Kevin Rowsey

Good Morning Kevin,

[Ex. 6 Personal Privacy (PP)] I believe there were four wells sampled on that road and 3 were not qualified. There is also one well that was not sampled yet as it was winterized. We did get information on cost for hook up of the homes on that road, but with only one well qualified we did not pursue it further. Ali is following up with the owner of the well not yet sampled.

Kathy

Andrew and Kathy,

I was able to get in touch with [Ex. 6 Personal Privacy (PP)] at [Ex. 6 Personal Privacy (PP)]

[Ex. 6 Personal Privacy (PP)]

[Ex. 6 Personal Privacy (PP)]

[Ex. 6 Personal Privacy (PP)] I'm not sure if you all have looked into this or if you even knew that that's what he had requested. I looked at the residences [Ex. 6 Personal Privacy (PP)] and the houses look like they're relatively close to the city proper. [Ex. 6 Personal Privacy (PP)]

[Ex. 6 Personal Privacy (PP)]

Thanks,

Ex. 6 Personal Privacy (PP)

My name is Kevin Rowsey and I work for the U.S. Environmental Protection Agency Region III. I'm currently working with the Chemours Company and their contractor, AECOM, to identify perfluorooctanoic acid (PFOA), also known as C8, contaminated drinking water sources in and around the Chemours owned Washington Works plant near Parkersburg in Wood County. Under our Amended Administrative Order on Consent, the Chemours Company must identify all PFOA contaminated drinking water sources in the Parkersburg area (both public and private) and offer alternative drinking water to those residents.

It is my understanding that you own the property at Ex. 6 Personal Privacy (PP) in Vienna and that your private drinking water well was sampled on January 24, 2017 which showed a result of 96 parts per trillion (ppt) of PFOA in your water supply. The EPA issued a Lifetime Health Advisory in May 2016 that established a new standard for PFOA concentrations in drinking water at 70 ppt. Therefore, the concentrations of PFOA in your private well exceeds the EPA health advisory. The Chemours Company is required to offer treatment for your well or provide an alternative.

I was told by AECOM that Ex. 6 Personal Privacy (PP) Ex. 6 Personal Privacy (PP) The current resident at Ex. 6 Personal Privacy (PP) has been offered bottled water as an alternative. I was also told that your house at Ex. 6 Personal Privacy (PP) Ex. 6 Personal Privacy (PP) It is the wish of Chemours and the EPA that treatment be installed on your private well to remove PFOA from your water as well as Ex. 6 Personal Privacy (PP) water.

AECOM emailed you on March 7 and April 12, 2017; however they have not received a response. We'd like to get in touch with you to discuss treatment options and set up temporary bottled water deliveries. Please contact **Ms. Ali Pearce**, a Chemours representative, at **304-588-1524** and she will help you plan installation of treatment, if you wish to receive treatment.

Please do not hesitate to contact me as well. I'm familiar with the processes and procedures that Chemours conducts when installing treatment.

Thank you,

Kevin Rowsey
